## PROFESSIONAL SUMMARY

Project Management Professional (PMP) with extensive experience leading complex, multi-sector projects across Engineering, Construction, IT, Furniture Manufacturing, and Retail Operations. Demonstrated expertise in strategic planning, enterprise scheduling, cost governance, and risk management, utilizing Microsoft Project, Primavera P6, and Click Up to drive operational excellence and delivery performance.

Proven ability to lead cross-functional and geographically distributed teams, strengthen project governance frameworks, and implement structured methodologies across Agile and Waterfall environments. Experienced in aligning portfolio initiatives with corporate strategy, optimizing resource utilization, and enhancing stakeholder engagement at executive and operational levels. Recognized for building scalable project controls systems, improving schedule predictability, and delivering measurable improvements in cost efficiency, timeline adherence, and organizational performance.

## CORE COMPETENCIES

- Project & Program Lifecycle Leadership (Initiation–Closeout)
- Strategic Planning & Execution Alignment
- Enterprise Scheduling & Baseline Governance (Primavera P6, Microsoft Project, Click Up)
- Project Controls, Cost Management & Performance Tracking
- Construction & EPC Project Coordination
- IT & Digital Transformation Project Delivery
- Risk Management & Mitigation Strategy
- PMO Governance, Reporting & Executive Dashboarding
- Vendor, Contract & Stakeholder Management
- Resource Planning & Portfolio Optimization
- Agile & Waterfall Methodologies

## Technical Expertise

**Project Planning & Scheduling:** Microsoft Project, Primavera P6, Click Up

**Collaboration & Communication Platforms:** Microsoft Teams, Zoom, Google Workspace

**Project Documentation & Knowledge Management:** Microsoft Office Suite, SharePoint, Confluence

**Project Delivery Frameworks:** Agile, Kanban, Waterfall

## **PROFESSIONAL EXPERIENCE**

**Project Manager / Project Scheduler – Telecommunications (Fibre Optics Deployment)** Kennyworks Limited (AKK Gas Pipeline) Fibre Optic Backbone Project  
*(February 2025 – January 2026)*

### **Key Contributions & Achievements:**

- Directed planning and execution oversight for fibre optic backbone deployment, developing and controlling integrated project schedules in Primavera P6 to improve on time milestone delivery by 20%.
- Managed end to end fibre rollout activities including route survey, ROW coordination, trenching, HDD crossings, duct installation, cable blowing, splicing, OTDR testing, and network integration.
- Oversaw multi-location fibre deployment across backbone and distribution segments, ensuring alignment with telecom standards and transmission requirements.
- Implemented schedule risk analysis and recovery planning, reducing potential delays by 20% and strengthening rollout predictability across multiple work fronts.
- Coordinated civil, fibre installation, splicing, and testing teams to ensure seamless execution and interface management between infrastructure and transmission systems.
- Led resource forecasting and productivity monitoring for fibre crews, reducing idle time by 15% and accelerating network deployment timelines.
- Supported commissioning, acceptance testing, and final handover documentation in compliance with regulatory, quality, and HSE standards.

**Technical Project Manager – Project Controls (Electrical & Instrumentation)** A.A. Rano Nigeria Limited (Lubricant Oil Blending Plant, Kano)  
*( Sep 2024 – Jan 2025)*

### **Key Contributions & Achievements:**

- Led planning, scheduling, and performance monitoring for Electrical & Instrumentation (E&I) installation and commissioning works within a lubricant oil blending facility.
- Developed and maintained detailed project schedules, tracked progress against baseline, and achieved 95% schedule adherence through proactive variance analysis and corrective actions.

- Managed cost tracking and material control for electrical panels, field instruments, cabling, and bulk materials, ensuring alignment with approved budgets and procurement timelines.
- Implemented progress measurement systems and coordinated daily/weekly performance reporting to support management decision-making.
- Conducted schedule risk assessments, Root Cause Analysis (RCA), and Failure Mode & Effects Analysis (FMEA) to mitigate execution risks and minimize potential downtime.
- Oversaw pre-commissioning and commissioning readiness tracking, ensuring system completion milestones were met prior to plant start-up.
- Ensured compliance with HSE, quality, and regulatory standards while maintaining scope control and change management discipline.

### **Project Manager / Project Scheduler – Quicksilver Website Project 2024 (KSD Multicorp)**

***July 2023 – Aug 2024***

#### **Key Contributions & Achievements:**

- Led the planning, scheduling, and execution of the Quicksilver Website Project, encompassing web design, hardware setup, software development, and communication infrastructure.
- Developed a detailed **Work Breakdown Structure (WBS)** and integrated project schedule using Microsoft Project/Primavera P6, defining tasks, durations, dependencies, and milestones.
- Defined logical relationships and applied **lag times** for critical activities, ensuring accurate sequencing and realistic timelines.
- Incorporated **public holidays and organizational calendars** to enhance schedule accuracy and project forecasting.
- Coordinated cross-functional teams across web design, hardware procurement/installation, software development, and network configuration, ensuring seamless execution.
- Implemented **project controls practices**, including baseline management, progress tracking, and critical path analysis, improving visibility into task dependencies and schedule performance.
- Delivered the project on time while maintaining scope, quality, and stakeholder satisfaction.

### **Project Manager / Project Scheduler – Residential Construction Project (KSD Multicorp)**

***2023***

#### **Key Contributions & Achievements:**

- Managed end-to-end construction of a residential project, overseeing all phases from foundation to finishing, ensuring delivery within scope, schedule, and budget.

- Developed and maintained a detailed **Work Breakdown Structure (WBS)** and integrated project schedule, defining activities, durations, and logical relationships across foundation, superstructure, and finishing works.
- Directed schedule sequencing for critical activities including clearing, digging, blinding, block work, slab, pillars, formwork, lintels, plastering, plumbing, electricals, painting, and decoration.
- Applied **project controls methodologies**, including baseline creation, progress tracking, and critical path analysis, ensuring timely identification and mitigation of potential schedule risks.
- Coordinated multi-disciplinary teams, contractors, and vendors to optimize resource allocation and workflow, reducing idle time and maintaining productivity.
- Oversaw quality assurance, HSE compliance, and inspection processes across all construction phases.
- Delivered the project successfully on time while maintaining high standards of workmanship and stakeholder satisfaction.

**Project Manager – Furniture Production & Installation Projects (Kennyworks Limited)**  
**2022**

**Project Scope:** Residential & Commercial Furniture Projects

**Key Contributions & Achievements:**

- Managed end to end execution of furniture production projects, from design approval through fabrication, procurement, delivery, and on-site installation.
- Developed and maintained detailed **project schedules** using Microsoft Project, tracking fabrication, procurement, delivery, and installation milestones.
- Implemented structured procurement planning and inventory tracking, reducing material wastage and improving project cost efficiency.
- Coordinated multi-disciplinary teams including carpenters, vendors, and logistics personnel, ensuring **on-time delivery and installation**.
- Enhanced client satisfaction by implementing milestone-based reporting and quality control processes.
- Applied **project controls practices**, including progress monitoring, schedule management, and risk mitigation, to maintain project timelines and scope.

**Project Coordinator – Fashion Retail & Product Launch Projects (Bubket Engineering)**  
**2022**

**Project Scope:** Seasonal Fashion Collection Development & Distribution

**Key Contributions & Achievements:**

- Managed end to end seasonal fashion production cycles, from concept design through manufacturing, quality control, and market launch.

- Coordinated suppliers, manufacturers, and production timelines to ensure product availability ahead of peak sales periods.
- Implemented **inventory tracking and reporting processes**, improving stock visibility and reducing shortages during high-demand cycles.
- Supported marketing, distribution planning, and product release scheduling to align operational execution with business objectives.
- Applied **project controls principles**, including progress tracking, timeline monitoring, and cross-functional coordination, ensuring timely delivery and stakeholder satisfaction.

## Professional Certifications

- **Project Management Professional (PMP)** – Project Management Institute (PMI)
- **Microsoft Project & Primavera P6 Certification** – Project Scheduling & Controls
- **Agile Scrum Certification** – International Association of Project Managers (IAPM)
- **Cybersecurity Certification** – International Association of Project Managers (IAPM)
- **Project Management Certification** – International Association of Project Managers (IAPM)

## Education

- **Postgraduate Diploma (Engineering)** – Industrial Automation, 2020
- **Graduate Diploma** – Project Management, 2019
- **Higher National Diploma (HND)** – Mechanical & Fabrication Engineering, 2019
- **National Youth Service Corps (NYSC)** – 2021

## Selected Project Management Impact

- Improved schedule adherence across multi-disciplinary engineering and IT projects by up to **20%** through proactive planning and project controls.
- Reduced risk exposure by implementing structured **schedule monitoring, progress tracking, and mitigation strategies**.
- Delivered IT systems and process improvements that enhanced operational efficiency by **30%**.
- Successfully managed multi-sector projects across **Oil & Gas, Telecommunications, Construction, Furniture Production, and Fashion Retail**, demonstrating strong cross-industry adaptability and leadership.
